April 18, 1955

Vladimir P K E L S K Y - intelligence activities.

Obtained by JEAN from collaborator in Germany; Eval: 6-3  
Date of report: February 15, 1955.

1. Source reports that there is now absolutely no doubt that Vladimir P K E L S K Y / who is sufficiently known here as a radical Czech Separatist / is in the paid service of the German Intelligence. He adds that he may also be drawing money from other Intelligence Services, but does not give details.
2. The report adds that the Czech separatists newspaper "BOHEMIA", published in Germany, is a financially completely hopeless venture which could not survive for a week without financial backing.
3. P K E L S K Y's hatred of the post-1945 Czechoslovak regime is downright psychopathic. It is surpassed only by his wife/charishes every real or imaginary grievance inflicted in the first few months after the Liberation upon Germans in Czechoslovakia. She will passionately hold forth on these to anybody prepared to listen. Her denunciations of the pre-communist regime in Czechoslovakia (after the Liberation, but before the communist Coup) surpasses even those of the most angry Sudenst-German expellees.
